

COURSE PROGRAM

Welcome to a course on diagnostic imaging of the thorax and abdomen!

Great course for the small animal practitioner.

DATE AND VENUE:

8-9 December 2022 (2 days) Online.

COURSE CONTENT:

These sessions will give you the necessary tools for confident interpretation of abdominal and thoracic radiographs. You will also gain insights into some highly useful and practical ultrasonographic techniques. Case discussions exploring interpretation in emergency cases will be included. By the end of this course you will be able to:

- Describe appropriate radiographic technique and positioning.
- Evaluate and improve image quality.
- Recognise the normal radiographic appearance of the thorax.
- Identify different lung patterns.
- Recognise the normal radiographic appearance of the abdomen.
- Understand the strengths and weaknesses of radiography, contrast radiography, ultrasonography and advanced modalities for imaging of abdominal disease.
- Interpret radiographic changes seen with diseases in the thorax and abdomen and be familiar with sonographic appearance of abdominal disorders.

COURSE FEE:

7.500 SEK + VAT including 2 days of lectures, course material and course certificate.

REGISTRATION:

At the latest 30 days before the course starts at www.ivcevidensiaacademy.com/se

For more info or if you have questions, contact **academy.sweden@evidensia.se**

Registration is binding.

SPEAKER:

Mairi Frame

BVMS, DVR, MRCVS, DipECVDI, FHEA, PGCert. Mairi has worked in specialist centres in Switzerland, Austria, Sweden and the Republic of Ireland. Residency at the Vet School in Edinburgh and now works for Vets Now Glasgow.

SPEAKER:

Martijn Beukers

DVM, DipECVDI. Graduated from the University of Utrecht where he also did his residency and continued to work and do research. He currently works for two Evidensia referral centres and teaches diagnostic imaging.
