

COURSE PROGRAM

Best behaviour - for clinic staff & cats

Learn more to find out why cats should become your favourite patients! A mutual understanding of their needs will increase cat welfare, resulting in happier cats, clients and clinic staff.

DATE AND VENUE:

5-6 of December 2023 (2 afternoons 12:30-17:00 CET). Digital live stream.

COURSE CONTENT:

- How to make a **change of attitude**
- With **best business** in mind the clinic journey starts with the kitten
- **Preventive healthcare** during all life stages

The course will start with an introduction to why cats are important and what makes them different from dogs. We will explore more about feline emotions and why we should notice what cats are doing. Then you might wonder, how about handling challenging cats? You will be provided with valuable tools for interpreting the signals cats use and what should be done in response to those signs. Our feline experts will also guide you how to create a cat friendly environment at your clinic. The veterinary visit isn't just the time in the clinic. Learn how to support cat owners as they prepare for a visit and settle their cat back home. The use of pheromones is a key for cat friendly homes and clinics.

This course is available for anyone that wants to build their Cattitude competence (even if you are currently a "Catavoider"). Vets and nurses from all vet clinics are welcome - Evidensia and non-Evidensia clinics.

Qualify for 8 hours of CPD.

COURSE FEE:

60 EUROS (≈700 SEK) +VAT for 2 afternoons, course material and a certificate.

SPEAKER:

Sarah Endersby

BVetMed (Hons), MRCVS. Sarah qualified from the Royal Veterinary College, London and has worked in both mixed and small animal clinics. She worked for International Cat Care for 2.5 years. Her work at International Society of Feline Medicine involved managing the Cat Friendly Clinic accreditation programme and educating veterinary professionals worldwide about managing feline stress in veterinary settings. Since 2020 Sarah is working at Ceva Animal Health as Global Technical Manager for pet wellbeing.

GUEST SPEAKERS:

Several exciting cat experts will soon be announced.
